

UPS Shipping Interface

If your business ships products via UPS, we have the perfect partner for your Dynamics SL and UPS Worldship shipping system™.

UPS Shipping Interface

Distribution with Dynamics SL

FEATURES and BENEFITS

Save money on return shipping because your UPS WorldShip® still had the old customer address – use the UPS Interface to get the correct address on your shipping label.

Save time looking up tracking numbers for UPS shipments and use the UPS Interface to save them in Dynamics SL.

Speed up shipping by setting up bar code scanning in your warehouse to process shipping paperwork.

Improve order tracking by displaying both the SL order and shipping numbers on the shipping label.

Process Dynamics SL shippers directly from your UPS WorldShip shipping station and save customer service time.

Employ multiple UPS Shipping stations throughout the company and link them into your central Dynamics SL database.

Measure the shipping productivity for each warehouse shipping station.

Capture actual shipping cost, box and weight information for every UPS shipment.

UPS Shipping Interface

Distribution with Dynamics SL

Did the customer's new address make it into your shipping system?

Use the UPS Interface to get the address right and avoid a return shipment back to your warehouse.

Seamlessly flow the UPS tracking number, shipping cost and weight into SL from UPS WorldShip.

The UPS Shipping Interface empowers customer service by automatically capturing weight, freight cost, and tracking number information for tracking shipments. Use it to expand Dynamics SL's reach into the warehouse and make the shipping department part of your integrated enterprise.
